Re: PFD Concurrence in SR 519 Phase 2 Project Direction

Dear Mr. Dye:

On behalf of the Washington State Major League Baseball Stadium Public Facilities District (PFD), I write to express the PFD's support for the 'Go' option for SR 519 Phase 2. The PFD formally concurs with the project direction expressed in your letter to the project partners dated April 25, 2006.

The PFD also wants to recognize all the effort that you and your staff have put into bringing phase 2 of the SR 519 project to this point. Your staff, the City of Seattle's Department of Transportation and all the members of the various consulting teams have completed a tremendous amount of good work and analysis in the last 7 months. I want you to know that the PFD appreciates all of your effort. We look forward to continuing to work with you and the project partners on the implementation of this important transportation project.

If you have any question, please feel free to contact me or our Executive Director, Kevin Callan.

Sincerely,

José E. Gaitán, PFD Board Chair
